AcyMailing has become one of the best mailing delivery extension for Joomla and Adsmanager one of th

**Importance of a Newsletter:** customers and clients are the lifeblood of your business. What better way to build a strong relationship with your customers than through a newsletter program? A website newsletter is the best data to build a strong relationship with your customers. A goal

**Adsmailing:** This plugin enables you to search in all your Adsmanager items and insert them

It works with both Adsmanager versions, 2.6 and the old one, and you can install in Joomla 1.5, 1.6 or 2.5. For instance if you have a "ad\_country" or "ad\_city" fields you can filter ads by location; in this way you can. Moreover it allows to translate your ads with JoomFish (for Joomla 1.5) and it loads your Adsmanager C
